

# Linux Plumbers Conference 2024

## Wednesday 18 September 2024

### Sched MC - "Room 1.15 - 1.16" (15:00 - 18:30)

time	[id] title	presenter
15:00	[132] Challenges in scheduling virtual CPUs	HUSCHLE, Tobias
15:22	[119] Paravirt-Scheduling: Limit CPU resources using dynamic capacity based on the steal time	HEGDE, Shrikanth
15:44	[173] Improve scheduler debuggability	Mr YOUSEF, Qais
16:07	[75] Priority Inheritance for CFS Bandwidth Control	WANG, Xi
16:30	Break	
17:00	[292] The wakeup path is not enough anymore for EAS	GUITTOT, Vincent
17:22	[78] Enhancing the PSI framework in Linux Kernel for predictive and accurate workload analysis	KUMAR, Pintu
17:44	[172] There's a blackhole in the scheduler - managing system's response time	Mr YOUSEF, Qais
18:05	[262] QoS Hinting APIs: If we had them, what would they actually do?!	STULTZ, John
